

## 1" MAPRAIL

## Specifications

Ghent's maprails are the perfect tack surface when space is limited. The maprails feature an aluminum 6063-T5 rail with a 1/4" natural cork tack surface that will not shrink. The maprail can be mounted directly to the top of a board or directly to a wall. The maximum recommended load limit between mounting holes is 10lbs. These maprails are available in lengths of 4', 6', and 8'.
