

Natural Cork Self-Adhesive Skins

Tackboard Resurfacing Material

Natural Cork Self-Adhesive Skins

- Replace or renew any torn or worn board with Natural Cork Self-Adhesive Skins, made with finely grained natural cork, offering superior resiliency and tack-holding properties.
- Cork is an environmentally friendly, naturally renewable resource. Harvested from trees that are stripped of their bark when they are 15 to 20 years old, cork is taken with carefully made cuts that do not harm the inner core of the tree. The cork bark regrows, and this process allows a useful life of more than 150 years for each tree.
- Self-adhesive skins feature a peel-and-stick backing that applies easily to an existing board.
- CAUTION: Self-stick adhesive is intended for resurfacing on an existing board surface and has not been tested for use on other materials.
- TAA compliant. 10 year guarantee on natural cork surface material.

A. Natural Cork Self-Adhesive Skins		
Part No.	Dimensions	Ship Wt.
308JD	4'H x 4'W	6 lbs
308JG	4'H x 6'W	8 lbs
