Install Instructions for Wall Cabinets

Items not included but needed for assembly:

1. Screws, depending on material cabinets hang from.
2. Drill

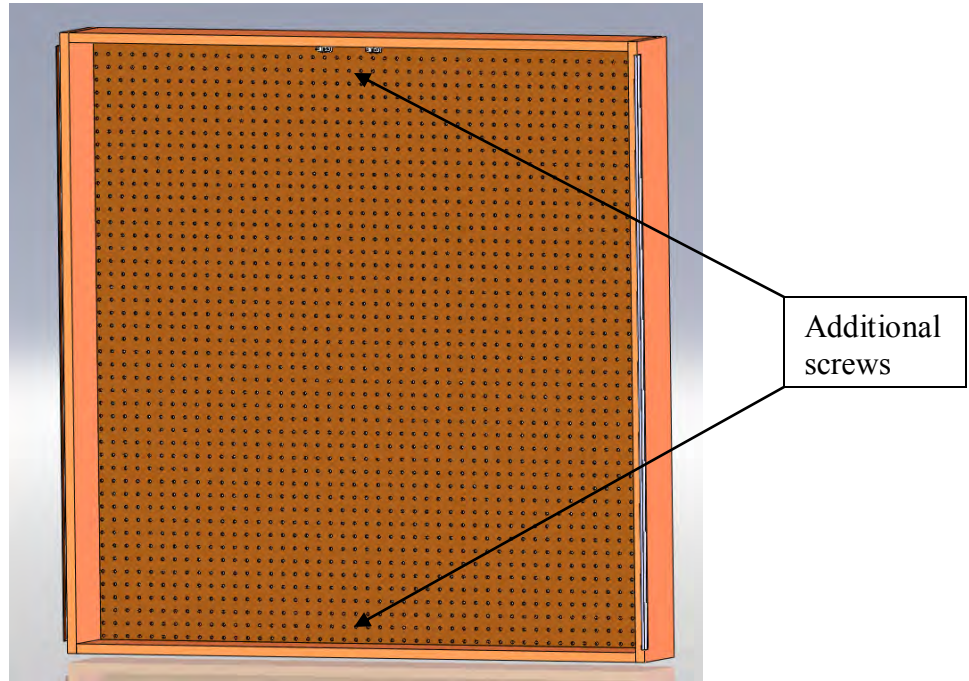

Instructions:

- 1. Put 1 screw in each corner. (make sure cabinet is hung level).**

Note: picture
shown without
back installed

2. Additional screw for top and bottom in middle if cabinet is over 36" wide.

3. Screw through the fastening cleat located on top and bottom of the unit; the fastening cleat is down 3" from the inside of the top and up 3" from inside of the bottom. (Otherwise you would only be screwing through the .25" back material.)
