

SS-18 Spike

18" long 3/4" galvanized steel stake for use in firm and tightly compacted soils. Steel wire lanyards allow for attachment to any goal. Sold individually or in set of four.

SAS-95 Auger

14" steel auger intended for use in loose or sandy soil. Steel wire lanyard provided to attach to existing framework. Sold individually or in sets of four.

SGA-91 J-Hook Stake

Rugged 18" J-style steel stake fits over most backstays. Best suited for firm and compressed soil conditions. Steel wire lanyards included. Sold individually or in set of four.

SWB-454(set) & SWB-451(ea) Steel Handle SWB-454W(set) & SWB-451W(ea) Nylon Strap Handle

Ideal where in-ground anchoring devices are not appropriate. Saddle bag design with handle, rests over the rear frame to provide necessary counterweight. Filled with 50lbs of dry sand. Sold individually or a set of four bags.

SGA-60

In-ground goal anchors provide the surest means of anchoring - will neither pull out nor slide off the base frame. Securely anchors any portable NOVA goal, or existing goal with minor modification. Set includes two anchors for one goal.

SGA-50

Ideal where in-ground anchoring devices are not appropriate. Tank style anchor has a 4-3/8" W x 3-1/4" H opening to fit over any round or flat rear crossbar. Hard plastic shell will not crack when filled in the field with 50 lbs of concrete, 39 lbs of sand or 24 lbs of water. Large carry handle and stackable design allow for convenient storage. Overall size 8-1/2" H x 12" W. Comes in bright yellow for visibility and safety. Please check the ASTM counterweight requirements for your specific goal when ordering to ensure proper anchoring.
