

Mobile Table Fixed Bench Operating Instructions: METB / MTFB8 / MTFB10/ MTFB12

Opening Table:

- 1) Release storage latch by lifting storage latch handle. Table should open slightly. **See Figure #1.**
- 2) Use both hands at top of benches to push downward to floor. Depending on operator size, you may place one foot at the bottom of the end leg to help push open while pushing on benches. **See Figure #2.**
- 3) Continue pushing down until table top reaches the 2/3rd's cleaning mode. The table will stop opening at this point.
- 4) Release center down lock bar by lifting the bar with one hand while lifting slightly up on bench with other hand.
- 5) Proceed to lower table to floor. Once down lock bar passes the hinge slot continue to push table down with both hands. **See Figure #3.** Be sure down lock is engaged into hinge slot. You may need to push down on tops to engage.

Folding For Storage:

- 1) Lift down lock bar with one hand and begin lifting upward by grasping bench and lifting with other hand. You first may need to push down on the tops to release bar.
- 2) Once table is partially lifted continue lifting by pulling upward on bench supports with both hands. **See Figure #4.**
- 3) Re-grip table by pushing in the middle of benches with both hands until storage latch engages. **See Figure #5.**

WARNING:

Table should be moved and operated by authorized adults only! Children and students should NEVER move or operate tables. Always engage storage latch to prevent tipping. Failure to follow warnings may result in serious injury or death.

When Moving Table:

Always Push from Side of Table using Both Hands.

WARNING:

To avoid tipping over, only push from side of table. DO NOT push from the table top side! Avoid rolling table over debris on the floor.

Standard Maintenance:

To ensure table life & quality operation; check & tighten fasteners & lubricate pivot points every (6) months.
