

STEM MAKER STATION

STEM Maker Station

STEM Maker Station

Schools everywhere are putting more and more emphasis on learning through building and hands-on experiences. The STEM Maker Station allows classrooms to store all of their essential maker materials in one secure place and share a unit between classrooms. The STEM Maker Station is also ideal for libraries where diverse creative activities are undertaken and space is limited.

Highlights

Durable and mobile:

The STEM Maker Station is a highly durable, versatile and mobile unit. Its weight and mobility makes it ideally suited to K-9 level students. The station is perfect for mechanical and art based classroom activities and allows students to explore their own creativity and develop solutions that are truly theirs.

Extensive storage:

This station has been designed to manage the storage of a broad range of tools, materials and tech devices. The large open storage rack, Open Tubs and large bottom shelf are suitable for carrying a wide range of materials and negate the need for using multiple storage solutions for your activities.

Product features:

- Cardboard or material storage rack
- Tape, ribbon and string dispenser
- Coroplast overhead sign and display
- Hooks for hanging accessories / tools
- Large bottom shelf
- Whiteboard for collaborative brainstorming and project planning (for Premium version only)
- Pegboard for tool storage (for Premium version only)
