

## Overview and Challenges

St. Anthony Tri-Parish Schools wanted to increase enrollment, plan for future growth, update learning environments and integrate technology.

Margo Bean, Development Committee Chair Member says, "We planned to have a school that lasts a long time. We wanted quality at a reasonable cost, since we raise every dollar for everything we buy. We were a bit overwhelmed at the daunting task of designing an entire school and all the choices to be made."

According to Cyndy Novotny, St. Anthony Principal, "We decided early on not to keep our old furniture. It was our first, best and last shot to make the school beautiful. Children deserve to be surrounded by beauty."

## Solutions and Spaces

With a turnkey solution as a goal, KI was selected to provide furnishings for the entire school: classrooms, library, offices, lounge areas and more. KI's breadth of product, personalized attention and education knowledge made them the perfect choice.

"We needed a company that had quality, but also a great deal of variety in the products they offer," says Bean.

Warm finishes, colors and styles create unique identities for lower grades and upper grades. Uniquely comfortable and affordable Intellect Wave seating contributes to better attentiveness and learning retention throughout the school. Sela and Tea Cup lounge seating offer a more informal interaction option and enhance the ambiance of the school.

"Everybody loves it," says Bean. "As students wandered around the first day of classes, every single child was beaming."
