

Classroom with Strive® task stool, Instruct® desk, and Intellect Wave® chairs and desks.

Challenge: Designed in the 1970's open-concept style, this school needed to be totally re-envisioned and renovated into a vibrant learning environment. New spaces must enable today's teaching approaches and technology. Flexibility is critical to support both traditional and collaborative teaching styles.

Solution: KI was selected to furnish classrooms, computer labs, the entire library, offices, and meeting/breakroom spaces. This solution ensures a coordinated look and feel throughout the school. Color choices provide variety and visual excitement. Classrooms feature flexible, durable Intellect Wave® furniture and include ADA accessible desks. Also integral to the new classrooms are Instruct® All Terrain mobile instructor's desks, which can be moved within the room and accommodate both seated or standing teaching styles.

Library with Intellect Wave® chairs, Inquire® tables and Spacesaver® shelving.

Office with Impress® Ultra task chair, 700 Series® desk and Rapture® stack chairs.

Computer room with InTandem® table system and Intellect Wave® chairs.
