Model #	Description
TD-AC	Appleton Teacher's Desk

Teacher's Desk Components:

The top of the desk is a 60"W x 24"D top featuring high pressure laminate(HPL) with 3MM PVC Edge banding. The Pedestal Unit is constructed of .75" thick particle board with thermal-fused laminate(TFL) on both sides, matching 3MM drawer edge, 020 body edge, white replay drawer boxes, REplay pulls, side mount full extension 150lb slides on file drawer, white undermount glides on single drawers and 4 (50mm) dual wheel casters. The UNE-T Leg on the opposite end is constructed of a smooth silver powder coated, 1.25" square, 14-gauge steel tube leg with a fully welded 10-gauge mounting plate at top and 2 (50mm) dual wheel black casters at bottom. Desk is finished off with a 30.5" wide x 6" tall apron panel made of .75" thick particle board wrapped in thermal-fused laminate, spanning from the leg to the pedestal unit.

Assembly:

Unit is fully assembled except for installing the casters.
