Contemporary Designer Stool Series

The all-new NPS® **Model #6800 Designer Stool** is ideal for your science lab, institutional or educational setting. With its fashionably crafted curved leg design, this contemporary stool will enhance the setting of your room. Built with 18-gauge heavy-duty steel curved legs, this unit will hold up under rugged and intensive usage. It is furnished with a choice of a heavy-duty steel or a hardwood seatpan. The seatpan can swivel 360° and is adjustable from 18" to 25" height by simply turning the seat. The adjustable height pole is concealed with our premium steel center sleeve for an elegant appearance. This stool features a convenient footrest to add to the overall comfort.

The 6800 series stool is a high-quality, long lasting stool that will fit right into any environment.
