

# TEKCART™ Prime Technical Specifications

## Models

- PRIME-36

## Features and Benefits

- Stores, charges, and transports 36 devices up to 15"
- Full Metal Construction
- Charges via AC power strips with our Intellepower™ Smart Timer
  - Intellepower™ is current sensing and will test each power strip for AMP draw; it then determines which, if any, of the power strips can be provided charge simultaneously based on power draw. It will continue to monitor the power draw throughout charging until all devices can be charged at once. Intellepower™ will automatically shut off once the devices no longer require a charge.
- An external LED power switch makes it easy to power the cart on and off
- External status lights provide visual confirmation of which power strip(s) is charging
- Two hinged front doors with a 3-point locking system and hasp locking system (utilizes a padlock)
- Hinged rear door with a 3-point locking system and keyed lock provides easy, but secure access to charging components for IT personnel
- An integrated handle saves in the overall footprint and allows the cart to rest flush against a wall or other carts
- A flat, unobstructed metal top provides a smooth work surface
- Plastic Cable Management Dividers (CMD) keep cables organized
- 3 removable brick trays provide organized storage of mid-cable power bricks
- Four 5" swivel rubber casters – two full locking
- Two external power outlets provide power for peripheral equipment
- Recessed cord wrap organizes the cart power cable without affecting the cart's footprint
- Carts ship fully assembled (with exception of CMD's)
- Lifetime warranty on parts; limited 3 year warranty electrical components

## Specifications

- Cart base, front doors, and frame are constructed of 18 gauge steel
- Shelves, rear door, and cart panels are constructed of 20 gauge cold rolled steel

<b>Cart Description</b>	<b>TekCart™ Prime</b>
<b>Part Number</b>	<b>PRIME-36</b>
<b>Device Capacity</b>	36
<b>Slot Dimensions (W x H x D)</b>	1.5" x 10.5" x 15.84"
<b>Cart Dimensions (W x H x D)</b>	26.41" x 42.79" x 25.89"
<b>Power (works with standard 15 Amp power outlets)</b>	Intellepower™ Smart Timer with (3) staggered 12-outlet power strips; Two external power outlets; 10 ft. detachable power cord; UL Listed
<b>Shelves</b>	3
<b>Net Weight</b>	150 lbs
<b>Warranty (Mechanical/ Electrical)</b>	Full lifetime on the cart / 3 yr electrical
