

# THE QUAD POD

CREATE YOUR SPACE

The Quad Pod by CEF is a revolutionary concept in educational furniture design! This design concept allows you to customize your table according to the storage and functionality needs that you may have in a makerspace or classroom. CEF has designed four pod configurations that allow for storage, a trash bin, device charging & storage or storage with bins. You can mix & match the pods, or have all four pods identical-your choice! These four pods secure to a metal frame on casters which forms a sturdy base and is topped with a 48x48 1.5" solid maple butcher block top, thus creating the most flexible and ingenious collaborative table around!

48Wx48Dx34H
