Tenjam has made a giant leap forward in recycled materials and proven that Recovered Coastal Plastic (RCP) can be economically recovered, recycled, and turned into high performance products. RCP is plastic debris recovered from shorelines, waterways, and coastal communities where it's intercepted before entering the ocean. All Tenjam Session Series products include a varying percentage of RCP material in their construction. This is a hard plastic product suitable for indoor and outdoor environments. 100% recyclable. Certified for healthy indoor air quality.
