

ATTACHABLE USB MONITOR

STI2BL

SIDETRAK® SLIDE ATTACHABLE PORTABLE MONITOR

Want your team to enjoy desktop computer efficiency and productivity virtually anywhere? Add a second screen to their laptops with the SideTrak® portable monitor. With SideTrak, employees can easily work with dual screens whether they're in the office, a coffee shop, on the couch, or at the airport.

The SideTrak portable monitor is lightweight and magnetically attaches to a laptop with device-safe metal plates that make it easy to add and remove the 12.5" second screen. The dual sliding tracks are built to fit perfectly on most computers ranging from 13" to 17.5". Setup is fast and easy; simply slide out the screen, plug in the USB monitor cord, and get to work!

Features:

- Attaches with 4 device-safe magnets to the back of your laptop screen
- Does not require a desk, table, or a kickstand
- Customizable to the right or left side of a laptop
- Connects to laptop with just one cord, no external power required
- Screen extends to fit most laptops ranging from 13" to 17.5" with a flat back (no kickstand)
- Screen rotates 180 degrees allowing people across the table to see your screen
- Screen slides behind the laptop when not in use; does not need to be removed
- Compatible with most Windows, Mac, and Chrome operating systems
- Free driver download
- TSA approved
